

As the largest Crown license manager in Nova Scotia, the Woodlands Unit team at NewPage Port Hawkesbury is responsible for planning and supervision of forest management, private wood purchase and wood traceability, silviculture, harvesting, trucking, and road construction and maintenance. NewPage Port Hawkesbury is ISO 14001 registered, and certified to FSC and CSA & SFI forest management standards.

We are currently seeking candidates for summer employment opportunities to assist in various projects within our Woodlands group.

Primary duties would include field sampling including: regeneration & plantation assessments. Other duties may include assisting Regional Staff and/or the Forestry Resource group with various projects. The position will involve a combination of field work and data analysis in an office setting.

Preference will be given to candidates who possess the following skills and qualifications:

- A high focus on safety as well as comfortable working alone in the field.
- Experience in forest mensuration and plantation assessments.
- Good written and verbal communication skills
- Strong data analysis skills

Candidates can respond by submitting their resume and cover letter to:

Steven Delorey
Forest Management Coordinator
steven.delorey@newpagecorp.com

Deadline for applying is Friday, February 12, 2010. Only those candidates considered suitable for the position will be contracted.
